Governor Arnold Schwarzenegger
State Capitol Building
Sacramento, CA 95814

Dear Governor Schwarzenegger:

This is just a word of praise and encouragement from a supporter, and a fellow Republican, for the leadership you continue to show on Global Warming, as well as air quality, water quality and the environment in general. I also commend your movement of our friend Terry Tamminen to a position where he can focus more directly on environmental and energy issues.

Your leadership and the leadership of California on these issues is especially critical these days. Our leadership will be influential with other governors and in other states regardless of political party.

I continue to enjoy my work on following through on your Green Building Initiative.

The most important and lasting legacy you can leave as Governor is in preserving our environment.

Keep up the good work.

Kindest regards,
